Pune, Maharashtra | +91 9209127047 | warenikita71@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Entry-level Python Developer with a strong foundation in Python programming, SQL, and web technologies. Experienced in developing data-driven applications, performing system analysis, and building analytical dashboards using Python and Power BI. Skilled in Object-Oriented Programming (OOP), relational databases and Web Scraping. Currently pursuing a Python Full-Stack Development course at QSpiders, gaining hands-on experience with Flask, web frameworks, and backend application development. Strong problem-solving, analytical thinking, and collaborative skills, eager to contribute to application development, software engineering, and enterprise technology solutions.

Skills

- **Programming & Web Technologies:** Python (Object-Oriented Programming, Data Structures, Algorithms), SQL, Node.js, RESTful API Development, Web Technologies – HTML, CSS, JavaScript, Web Application & Backend Development, Django
- **Data Analytics & Business Intelligence:** Data Importing & Inspection, Data Cleaning & Transformation, Data Interpretation, Statistical Analysis, Predictive Analytics, Exploratory Data Analysis (EDA), Dashboard Development
- **Databases:** MySQL, Oracle SQL, Relational Database Concepts, NoSQL Database, Database Query Optimization
- **Tools & Technologies:** Power BI, Microsoft Excel, Machine Learning, GenAI, Version Control (Git/GitHub)

Professional Experience

CodeTech IT Solutions | Data Science Intern | Jan 2025 – Feb 2025

- Performed Exploratory Data Analysis (EDA), data cleaning, and database querying using Python and SQL, improving dataset quality by 30%.
- Assisted in developing and testing Python-based analytical applications, ensuring efficient data processing and accurate results.
- Debugged data processing workflows and optimized model performance, improving analytical efficiency by 20%.
- Developed interactive dashboards and analytical reports using Power BI, enabling data-driven decision making.
- Collaborated with cross-functional teams to gather requirements, document technical insights, and maintain project documentation.
- Utilized Git version control for project collaboration and code management.

Projects

SteelCo Business Analysis | [Link](#)

- Designed a user-centric sales analytics dashboard by analyzing internal sales data and integrating global market research for performance benchmarking.
- Delivered actionable insights on sales patterns, top contributors, and expansion-ready countries through a structured Excel + PowerPoint report.

Customer Churn Prediction | [Link](#)

- Built predictive models for churn risk using statistical and ML techniques, achieving 85% accuracy.
- Created Power BI dashboards to monitor churn KPIs, improving campaign targeting efficiency by 15%.
- Used step-by-step problem solving and algorithm selection to identify high-risk customers.

Stock Price Prediction Using Statistical Modeling - [Research Paper](#)

- Integrated historical stock data via APIs and applied ARIMA & Linear Regression ($R^2 = 0.99$).
- Produced weekly forecasting reports with insights on 50+ stock trends, volatility, and investment signals.
- Published the research findings in the International Journal of Management and Economics (IJME), ISSN: 2231- 4687, Vol. 2, Issue 01, January 2026.

Education

Master of Science in Statistics | Dr. D. Y. Patil Arts, Commerce & Science College, Pune | CGPA: 7.82 | 2023 – 2025

Bachelor of Science in Statistics | Dr. D. Y. Patil Arts, Commerce & Science College, Pune | CGPA: 8.22 | 2020 – 2023

Certifications

- International Journal of Management and Economics | Jan 2026
- Python Full-Stack and Data Science Course | QSpiders | Nov 2025
- Machine Learning Training Certificate | Internshala Trainings | Jan 2025
- Data Analytics & Visualization Job Simulation | Accenture North America (Forage) | Jan 2025
- Google Data Analytics Certificate | Coursera | Oct 2024
